

Is it possible to keep a garden in bloom without rainfall, or too much rainfall, or record heat? **Yes!**

Another Summer of Extreme Weather – Best Practices/Best Plants

Pat Wyszynski (Draves)

Pat has been a member of the Grey County Master Gardeners for 14 years. Her skills and experience as a college professor and administrator fit well with the group's focus on learning and teaching. Pat's ancestors were all Grey County farmers and that's what drew her back to the area. Pat lives & gardens north of Owen Sound on the escarpment. Her passion lies in using a combination of native and non-native plants to provide habitat, food and water for birds, bees & butterflies. Pat's greatest challenge and most rewarding experience has been caring for the large pond she created with her husband 7 years ago.
